- Food

CERTIFICATES

Software Engineer Intern Certificate (Hacker rank) (07/2024 - 07/2024)

Completed Hacker Rank's Software Engineer Intern Certificate program Demonstrated strong problem-solving skills and proficiency in database querying.

SQL (Hacker Rank) (02/2024 - 02/2024)

Earned HackerRank's SQL Certification by completing two challenges. Demonstrated strong skills in database querying, management, and optimization.

React.js (Hacker Rank) (07/2024 - 07/2024)

Demonstrated proficiency in ReactJS, including components, state management, hooks, and performance optimization. Successfully completed coding challenges that tested the ability to build and deploy dynamic user interfaces and manage application state effectively.

TECHNICAL AND MANAGERIAL EXPERIENCE

TECHNICAL EXPERIENCE

Let's Chat (06/2024 - Present)

- Description: Developed a real-time chat application enabling instant messaging and photo sharing.
- Technologies Used: React.js, Google Firebase, JavaScript, HTML, CSS.
- Features:
 - User authentication and authorization with Firebase Authentication.
 - Real-time messaging powered by Firebase Firestore.
 - Responsive and intuitive user interface (UI) built with React and CSS.
 - Integration of Firebase Cloud Messaging for instant notifications.
- Responsibilities:
 - Designed and implemented the front-end using React.js.
 - Set up and managed the Firebase backend for real-time data storage and retrieval.
 - Ensured a seamless user experience through responsive design principles.
 - Conducted testing and debugging to ensure application reliability and performance.
- Update: Currently working on enhancing user experience and optimizing performance.
- Working Demo: [Let's Chat](#)

Weather Web App (08/2023 - 08/2023)

- Description: Developed a weather application providing real-time weather information based on user location or searched cities.
- Technologies Used: React.js, JavaScript, HTML, CSS, External Weather API.
- Features:
 - Clean and user-friendly interface ensuring accessibility and responsiveness across devices.
 - Dynamic background changes based on weather conditions for an enhanced user experience.
 - Managed API integration, data parsing, and display logic for accurate weather information.
- Working Demo: [Weather Today](#)

MANAGERIAL EXPERIENCE

Leadership and Team Building Experience

- Team Captain and Recruiter - College Championship**
 - Led the team to the semifinals of the College Championship, demonstrating strong leadership, decision-making, and team management skills.
 - Took initiative as the team recruiter, responsible for identifying and selecting team members, ensuring a balanced and high-performing team.
 - Cultivated a positive and motivating environment, promoting collaboration and teamwork, which contributed to the team's success.

Event Management Experience

- Event Manager - Technical and Cultural Fest, SRMCEM**
 - Successfully organized and managed a large-scale technical and cultural fest, coordinating with multiple stakeholders to ensure seamless execution.
 - Oversaw logistics, including venue selection, budgeting, and scheduling, enhancing organizational and project management skills.
 - Led a team of volunteers, fostering teamwork and collaboration to deliver engaging activities and presentations that attracted a diverse audience.
 - Developed promotional strategies that increased participant engagement and attendance, showcasing strong marketing and communication abilities.
